**As non-oxygenated fuel becomes available at more gas stations, they will be added to this list.**

**If you are aware of a station currently supplying non-oxygenated fuel and they are not on this list, please notify a legislative committee member.**

Thanks.

**These are the stations that provide non-oxygenated (ethanol-free) gasoline in the state of Minnesota and Wisconsin. Please stop by and thank them for their participation during cruising season, continue to patronize them with your daily drivers and remind them that our collector cars count on them for the non-oxygenated fuel.**

We have been informed the stations on this list provide non-oxygenated fuel. If you don't see a station on this list that you know does supply the non-oxygenated fuel, or if you discover a dealer who is on the list and should not be, please get a location and phone number. We will need to call the station to confirm that they should or should not be on our list.
